F5J POSTAL

Not much movement in the upper echelons of the charts with Chris Barrenger (WA) retaining his firm hold at the top both monthly and for the yearly Champs. We welcome Mike, Phil and Mark into the gentle affray but a couple have missed out for this month.

Sorry, no LeaderBoard again this month as its compiler is currently busy sorting out the AEFA. Ed.

E-RES POSTAL

A few flyers missed out on their April flights which means some re-arranging of the top ten. But this also gave the stayers a break including Rob Watson and Wayne Harris (ACT) who move to second and third respectively in the yearly Champs. YTD results next page.

With the Postal, as in most ongoing competitions it is consistency that wins out. You don't get to the top by having excuses! Ed.

ELECTRIC OLD TIMER, POSTAL

Hi EOT flyers.
Scores for April have been uploaded to Gliderscore. Please advise of any errors or omissions and I will rectify.
I'm sure that we all look forward to better flying weather.

Attached is the yearly Championship Table up to and including April.
This table is not available from GS Online.
For April results in each Class that we fly, see next two pages or check Gliderscore Online. April is Event 4 ie. corresponding to the month.
Keep chasing those thermals. It doesn't matter when winter comes, remember that it's temperature differences that matter.
The email QR code links sent out in February work up to and including November. I can resend links if yours have disappeared into the ether.
We have many tied scores at this point, so continue sending Lipo residuals and motor run times where required. That data may well be needed to break ties at year's end.

EOT POSTAL, page 2

Thankyou all for your participation.
There have been more flyers this year. Even more would be better and make the Postal Competition more worthwhile.
Please encourage others to enter if they fly old timers.

We did have a successful **"Postal fly-in"** for those able to make it to the HSL, Maddens Plains field NSW, on Easter Sunday.
Further fly-ins at HSL are planned. Why don't you try one at your field?
No date has been chosen yet for the first of these. It will be a weekday (but not a Tuesday). The E-RES and F5J Postals are planned to run at HSL on the same day. All flyers are welcome provided they hold MAAA membership which is needed for flying at the HSL, Maddens Plains field.
Happy flying,
Ken Woodward.

DETAILS FROM AUSTRALIAN ELECTRIC FLIGHT ASSOC ANNUAL GENERAL MEETING

The AEFA website is to be changed to a more modern platform and updated.

Note that we are looking for a Secretary. If interested please contact any committee member. It's not a very onerous job.

Motion 3: Election of committee for 2024/5
President Terry Scolari (self nominated by email)
Vice President – Barry Burke (self nominated by email)
Secretary – no nomination
Treasurer – Phil Stevenson (self nominated by email)
As there was only one nomination for each executive position, no ballot was conducted and the people nominated were elected to the positions

Motion 5:Election of ordinary members to the committee
Hutton Oddy (self nominated by email)
Mel Gillott (self nominated by email)
Peter Pine (self nominated by email)
John Quigly (self nominated)
The meeting accepted these nominations and determined that there would be 4 ordinary members on the committee.

Motion 6: Resolved that AEFA donates $1667 from the "Paul Gibson" legacy to the 2023 F5J World Championship team

Hi ...F5J pilots
In prep for Horsham contest I spent this "late" morning doing some F5J practice flying at my local field....Big Bend.
I had some friendly spectators wishing to see what exactly we do...great bunch of visitors to a local neighbor (Doctor Greg) who I taught to fly a Radian glider.
A difficult morning with very small thermal's...had to work hard for any sizable lift.
Best I could do was a 53 meter launch and inside 2 meters.

Big Bend is a large horse shoe divergence in the Murray River....in SA ...very close to my home....where I have my own flying field.

The ground here is basically "bed rock " so I am not going to "dork" a model into the spot.
Nearing mid day the thermal were growing and not so tough to find.
Happy Days.

...Pete Melders

Southern Region Electric Glider Competition 2024 Cooma Round 2 Sunday 26 May 2024

Contacts: Grant Manwaring 0402133379 Rick Harris 0497875538 Geoff Malone 0427094150. Contact for any more details.

Round 2 of our 2024 Southern Region Electric Glider Competition will be held at the Phoenix Model Aero Club field at Cooma on Sunday 26 May 2024. The event is based on a simple rules format that encourages flyers of varying ability to participate and enjoy the days gliding activity. The event will again consist of two classes, up to 2.6 meters class and above 2.6 meters to a maximum of 4.0 meters. We have made some minor rule changes to enhance the event. These are, allowing models in the under 2.6 meter class to fly without a height limiter, to have 30 second motor run, (at CD discretion), for the 4.0 Meter Class models they must use a height limiter set to 150 meter or 25 seconds motor run.
